---

## WORK EXPERIENCE

---

### UX UI DESIGNER at Prime Systems | From 2016, Current work.

PrimeSystems is a technology company focused in MBPM (Mobile Business Process Management). It has the PrimeBuilder (Platform and Store), which I have been working with the development and **innovation team**.

My responsibilities are to plan, **create/design**, develop and test new solutions for **products** and **process**.

In my team there are Front-end Developers, Back-end Developers and Software Architects, with whom I work and share experiences.

### UX UI DESIGNER at Animatto | June 2015 - June 2016

Animatto is a Digital Agency, where I executed majors projects with a wide range of customers, such as **Google**,

**The World Trade Center, Software One, Victorinox, Havana and Minas Tênis Clube**. There I designed websites, hotspots, digital marketing campaign and digital arts.

### UX UI DESIGNER at webAula | December 2013 - February 2015

WebAula is special to me, because it was my first trainee job and after that I became part from the permanent staff - as an UX and UI Designer. I worked in internal communication area for about 10 months, and after that I was **promoted** to development area as a **front-end developer** to work in one of the mainly products.

---
